

AICE Environmental Management Science Course Syllabus

Lemon Bay High School
Andrea Green
2021-2022
Room 02-111

Course Description

Cambridge International AS Level Environmental Management is accepted by universities and employers as proof of knowledge and understanding of the key issues affecting the environment on a variety of scales. Through their study, candidates gain lifelong skills and awareness including:

- a knowledge of environmental processes and the impacts of societies on the environment
- the scientific principles that underpin issues of sustainability and environmental management
- the causes of key issues affecting the environment as well as possible ways of managing these
- the pressures which impact on the environment and potential solutions to these.

This course is designed to encourage learning through suitable case studies, both local and global. AICE Environmental Management provides a good foundation for further study of Environmental Science and Management or related subjects in higher education.

****The AICE Environmental Management EXAM will be administered (TBA).****
