

Lemon Bay High School
Off Campus State College Dual Enrollment Contract

Name _____

Date _____

Student ID _____

Graduation Year _____

Please note that any off campus state college dual enrollment courses require a signed contract between the student, parent/guardian and school.

By signing below, I understand and acknowledge the following:

- 1) Dual enrollment is an opportunity to take challenging and accelerated courses through our local state colleges. Students who successfully complete dual enrollment courses will save time toward their college degree and save money with free tuition and textbooks. However, the amount of work necessary to succeed in college level courses may be much greater than high school courses. Colleges suggest at least two hours of study outside of the classroom for each hour in class. For science and math classes, it may be more hours.
- 2) Students must meet all qualifying criteria by the stated deadline each semester. These include 3.0 unweighted gpa, qualifying test scores, high school approval and parent approval. All paperwork and course registration must be completed by the deadline. No exceptions. After the deadline, holds will be placed on student accounts.
- 3) There are specific processes in place to register for off campus dual enrollment courses. Students are expected to be proactive and motivated to complete these steps. These steps will be communicated to students by their LBHS guidance counselor through the Remind App. Again, deadlines are set by the colleges and they will not make exceptions.
- 4) To support student success, there are many resources on the State College of Florida and Florida SouthWestern campuses. Both have academic resource centers where tutoring and writing workshops occur. If you are struggling with coursework, DO NOT WAIT! You must talk with your professor or seek out tutoring.
- 5) Dual Enrollment course work and grades become part of a student's permanent college transcript and will impact eligibility for financial aid and admission to other postsecondary institutions.
- 6) Students must earn a "C" or better in each college course taken in the dual enrollment program. Students who earn less than a "C" in a dual enrollment course or withdraw or are withdrawn from a course after the add/drop period will not be eligible to participate in dual enrollment the following semester. Grades can also effect graduation, college admissions and scholarships. A poor grade in DE classes may result in a university rescinding your acceptance.
- 7) Students will be provided with text books for SCF and FSW courses. These books are property of Lemon Bay High School/Charlotte County Public Schools and must be returned to LBHS at the end of each semester. A book obligation will be issued if textbooks are not returned.
